Castlewood®

Book of Fine Carved Wood Decoration
Volume X

Design Enhancements

This edition includes several new product offerings including X-Island End Panels, Contemporary Box Range Hoods, Cascade Range Hoods, Transitional Range Hoods, and extended height options on all curved hood configurations.

We are also delighted to announce that Castlewood is now a fully accredited 2020 manufacturer. Our 2020 design program is open and available to all 2020 subscribers.

The products depicted in this catalog are sanded and ready to finish. Some items are hand carved. All hand carved items are sealed to aid in finishing and to help prevent splitting and cracking.

All dimensional specification information can be found by visiting the castlewood.com website. A corresponding specification guide with line drawings is available by request. Available stock species include Alder, Birch, Cherry, Hickory, Maple, Red Oak, Rubberwood, and White Oak. Other hardwood species can be made available as special order.

Dealer inquiries are always welcome. New product configurations are being added regularly. Please visit castlewood.com for the latest updates and details.

Email inquiries to info@castlewood.com.

Shiplap Chimney Hoods

One of the hottest kitchen design trends is the use of “Shiplap” Planks. **Castlewood** offers two versions of Chimney style range hoods that employ the shiplap look and construction.

SY-WCSLR Rustic Shiplap Chimney Hood

SY-WCSL Shiplap Chimney Hood

Alder

Hickory

Cherry

Dark Gray

Light Gray

Castlewood Shiplap hoods are available in “smooth plank” and “rustic plank” versions. The smooth plank version is available in Alder, Cherry, Hickory, Maple, Red Oak, and White Oak. These units are sanded to 220 grit and ready for finishing. The rustic plank version is available in Spruce and is pre-finished with a Sherwin Williams stain. Six standard finishes (BK) Black, (BR) Brown, (DG) Dark Gray, (LG) Light Gray, (WH) White and (WW) Whitewash are available. The “rustic” plank is weathered with a heavy texture. Both of these chimney hood styles are available in 31”, 37”, 43” and 49” widths and come standard in 42-1/2” height that includes a 15” Chimney Extension. Optional chimney extensions are available in 26-1/4” and 37-1/2” heights to accommodate a variety of ceiling dimensions. Available accessories include Stainless Steel liners, and 300CFM, 350CFM, 400CFM, 500CFM and 620CFM Ventilation units. A **Removable Upper Access** panel option is available.

Design Enhancements

Shiplap Epicurean Chimney

Castlewood®

The Castlewood Epicurean range hood is now available in “**Shiplap**”. This new configuration offers high style with the warmth and charm of rustic shiplap planks. Available hardwood species include Alder, Cherry, Hickory, Maple, Red Oak, and White Oak. Pre-Finished Distressed Rustic Spruce available in Brown and Whitewash.

The Epicurean Shiplap Chimney hood is available with smooth hardwood planks in 33-1/4", 39-1/4", 45-1/4", and 51-1/4" widths.

A Rustic version is available in 31", 37", 43", and 49" widths. Standard available heights are 42-1/2", 48", and 54". Optional 14", 24" and 36" chimney extensions are available.

This chimney range hood is designed to accommodate the full line of Ascension ventilation units in CFM configurations from 350 to 1200. Stainless Steel liners are available. 31" models can only accommodate ventilation units up to 500 CFM.

XL Shiplap Chimney Hoods

The **Castlewood XL Shiplap Range Hoods** are available in both smooth hardwood and rustic Spruce versions. The XL configuration allows for the mounting of larger sized ventilation systems including the Ascension 900 and 1200 CFM models.

SY-WCSLXXL-A

SY-WCSXLR-WW

XL Shiplap Chimney hoods are available in 31", 37", 43" and 49" widths. Standard available height is 42-1/2" and includes a trim-able 15" tall chimney extension. This height works well with 9' ceilings. Optional 26-1/4" and 37-1/2" chimney extensions are available for taller ceiling heights. The Rustic XL Chimney Hood is made from solid Spruce and comes prefinished with a Sherwin Williams stain. Available finishes are Black (BK), Brown (BR), Dark Gray (DG), Light Gray (LG), White (WH), and Whitewash (WW). The Smooth Hardwood XL Chimney Hood is made of solid hardwood and comes unfinished in Alder, Cherry, Hickory, Maple, Red Oak, and White Oak. These range hood models are designed to accommodate the larger Ascension ventilation units. The 31" and 37" models accept the 900 CFM Ascension Ventilator. The 43" and 49" models accept the 1200 CFM Ascension Ventilator. Stainless Steel liners are also available.

Classic Collection

The Acanthus leaf design dates back to ancient Greece. The style was elaborated by the Romans and revived during the Renaissance.

This timeless architectural element is still widely used today. The **Acanthus Collection** offers a variety of Acanthus adorned carved wood components to add elegance and historic beauty to any project.

Scan here to view the Classic Collection including specifications and line drawings.

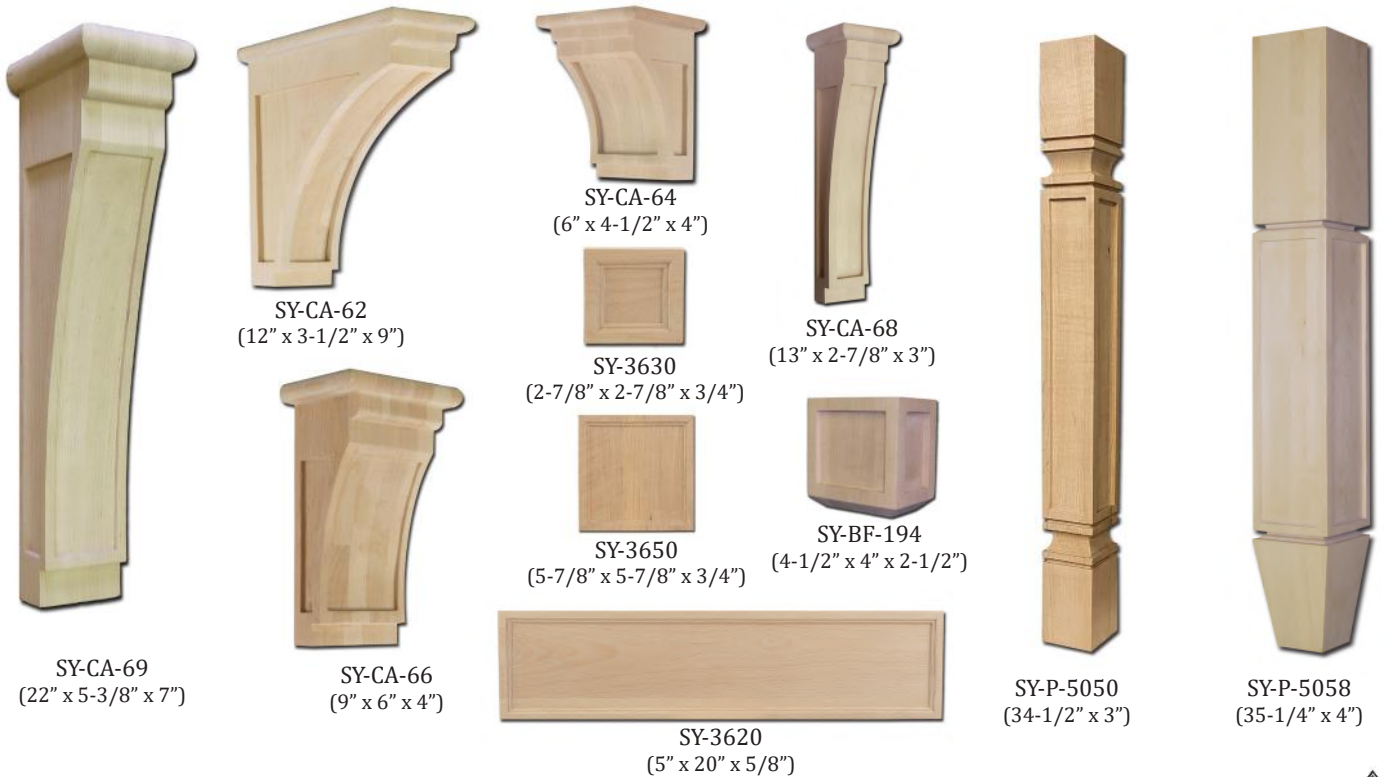

Mission Collection

The Mission style of architecture emerged in the later part of the 19th century. The design theme is traditionally plain and heavy. This style is characteristic of the Spanish Missions of the Southwestern United States. **Castlewood's Mission Collection** offers several bold elements to fortify and enhance your decor.

Scan here to view the entire *Mission Collection* including specifications and line drawings.

Shaker Collection

The **Shaker** design style emerged in the mid 19th century and was created by the Shaker religious sect. The style is minimalistic, with clean and simple lines. These underlying design principals have inspired **Castlewood's Shaker Collection**, an offering of simplistic architectural elements for todays more conservative design themes.

Scan here to view the entire *Shaker Collection* including specifications and line drawings.

www.castlewood.com

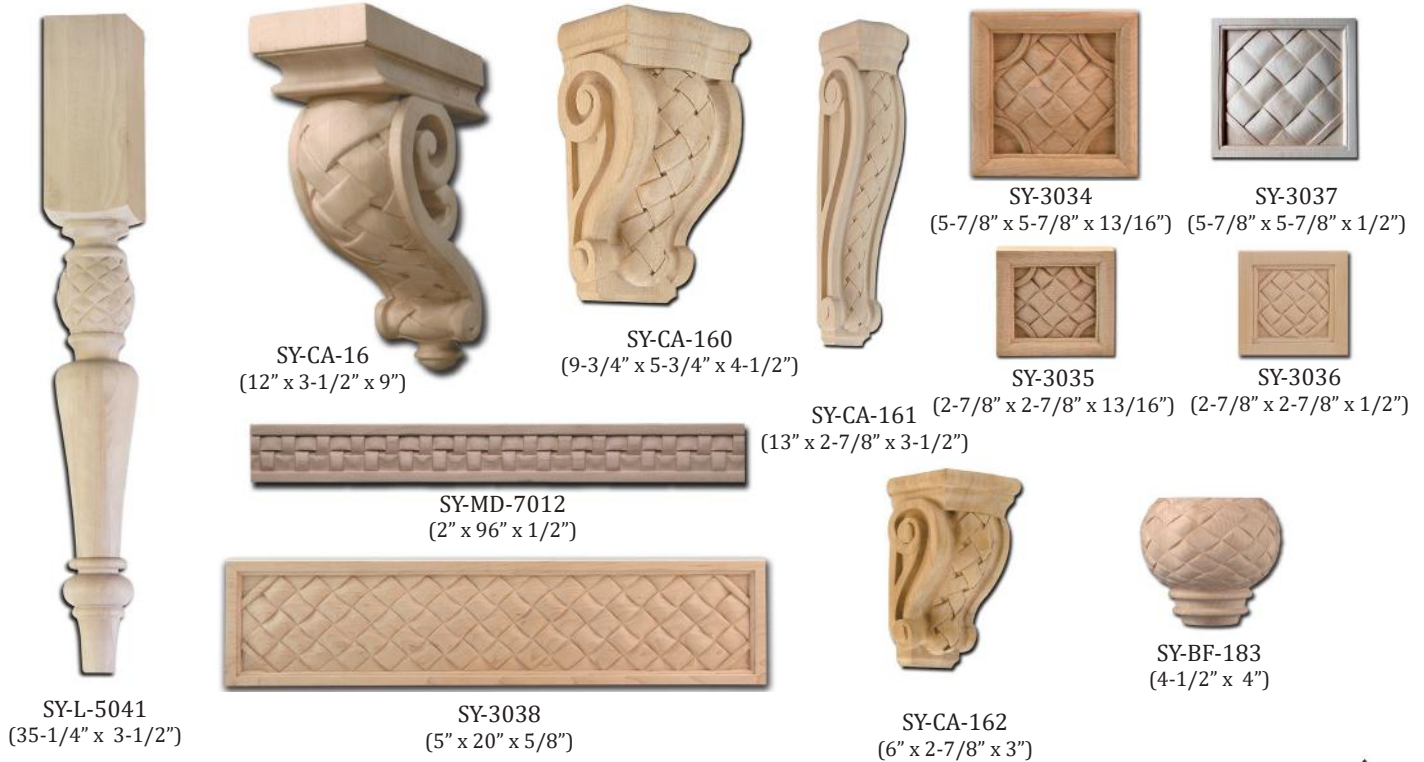

Design Enhancements

Woven Collection

The Basket Weave and Lattice design styles became popular in 14th century Europe. The style involves the plaiting of wooden slats, interwoven to resemble a basket. Lattice panels were commonly employed as door inserts or privacy screens. These two design themes are combined to create **Castlewood's Woven Collection**, an offering of intricate hand carved decoration for more elaborate designs.

Scan here to view the entire *Woven Collection* including specifications and line drawings.

Valance Collection

In many kitchen designs a valance is used to fill the space between wall cabinets over a sink base to enhance the finished appearance. Decorative valances are also useful in the composition of mantel range hoods. **Castlewood's Valance Collection** offers several configurations to satisfy these applications.

Scan here to view the entire *Valance Collection* including specifications and line drawings.

Coved Vanity Base Assembly

SY-VBAS
Shaker Vanity Base Assembly

SY-VBAA
Acanthus Vanity Base Assembly

Vanity Base Assemblies are constructed using the finest North American Hardwoods.

Frames are mitered and Bun Feet are secured with screws.

Standard base dimensions are 31-1/2" (w) x 21-3/4" (d) and 37-1/2" (w) x 21-3/4" (d). All units are 5-1/4" tall.

Alternative versions are available using any of the *Decorative Bun Feet* found within this catalog.

Vanities and Island Bases

Castlewood produces fully assembled ***Vanities and Island Bases*** with a variety of leg and shelving options. These fully assembled units are hand sanded and ready to finish. Standard available species include Alder, Cherry, Hickory, Maple and Red Oak.

Scan here to view the *Vanity Collection* including specifications and line drawings.

SY-VTL
Tapered Vanity

SY-VSK
Shaker Vanity

Castlewood introduces ***Vanity and Island Bases***. These high quality units are built using North American Hardwoods. Units come pre-assembled with one or two plain or ventilated shelves.

Various alternate designs are available using any of the ***Table Legs*** and ***Island Posts*** found within this catalog. Heights, widths and depths are customizable to fit island or vanity applications. Typical island heights are 35-1/4". Typical vanity heights are 30" and 34-1/2". Widths are typically 24", 30" and 36". Depths are typically 21", 24", 30" and 36". Custom sizes are available by request.

Drawer Sides

Scan here to view the *Drawer Side Collection* including specifications and line drawings.

Castlewood offers **Birch Plywood Drawer Side Blanks** for kitchen, bath and furniture applications. These drawer side blanks have a tough clear UV finish and are CARB 2 certified. The larger widths are suitable for use as shelving. Solid Birch and Poplar drawer components are also available within our dedicated container programs.

MSC-PDS Plywood Drawer Side Blank

Drawer Side and Shelving Blanks are constructed of pre-finished 9 ply Birch plywood. The material is 1/2" thick and is edgebanded along the top edge. The blanks are grooved on one side to accept up to a 5.2mm thick drawer bottom and are clear UV coated. All blanks come standard in 96" lengths. Standard drawer heights are 2", 4", 6", 8", 10" and 12". Other drawer heights are available upon request.

Removable Upper Access

A Removable Upper Access option has been developed for municipal building codes that require full inspection of ducting and wiring. This option also makes installation of the ventilation system easier. The removable upper access is available on all configurations. On Chimney style hoods the entire upper section will detach. On Shiplap Models a section of planks on the front portion of the hood is made removable.
